## **Mario A.R. Dantas**

*Associate Professor*

*Department of Computer Science  
Federal University of Santa Catarina (UFSC)  
P.O. Box 476 - 88040-900  
Florianópolis, SC, Brazil  
Tel: +55 48 32382328

## **I - Education**

- **PhD in Computer Science**, Electronics and Computer Science Department, University of Southampton, UK, 1997. **Thesis:** “*Efficient Scheduling of Parallel Applications on Workstation Clusters*”, and **MPhil** thesis: “*Workstation Cluster as a Parallel Environment*”.
- **Systems Analyst**, Department of Computer Science, Catholic University - PUC-Rio, Brazil, 1986. **Final Work:** “*Implementing an Enhanced Mechanism to Control Patents*”.
- **B.Sc. in Electrical Engineering**, Department of Electrical Engineering, University Gama Filho, Brazil, 1984. **Final Work:** *A Study of Load Balancing in Transmission Lines*”

## **II - Research Interests**

- Distributed Computing Systems;
- Cluster and Grid Environments for Parallel Engineering and Scientific Applications;
- Parallel Processing;
- Scheduling and Load balancing for Distributed Parallel Applications;
- Data and Computer Communication;
- Mobile Computing;
- Ontology and semantic to build middleware environments

Prof. Dantas has several industrial projects related to high performance computing issues from which he provides grants to his undergraduate and Msc students.

## **III - Teaching Interests**

- High Performance Computing Architectures;
- Distributed Computing;
- Data and Computer Communication;
- Parallel and Distributed Processing.

## IV - Academic Work Experience

- **University of Brasília (UnB)**, Department of Computer Science, Brasília, Brazil, Associate Professor, May 1998 - July 2002.
  - UnderGraduate- Courses: Data Communication; Computer Networks; Operating Systems; Introduction to Computing; Database Systems.
  - Final Course Projects (Subjects)\*: High-Performance Networks; Mobile Agents; Mobile Computing; Parallel Engineering Applications; Distributed High-Availability Architectures; Lightweight Protocols; Scheduling for Cluster and Grid Environments.

\* All the students have published their projects in a workshop or conference (national or international).

- Graduate (MSc)- Courses: High-Performance Protocols; Computer Networks; Data Communications.
- Supervision of MSc Thesis (Subjects)\*: Mobile Agents; Lightweight Protocols; Distributed Scheduling for Grid Environments.

\* All the students have published their projects in an international conference.

- **Federal University of Santa Catarina (UFSC)**, Department of Informatics and Statistics, Florianópolis, Brazil, Associate Professor, July 2002 - Present

- Under-Graduate - Courses: Computer Networks; High Performance Computing Architectures; Distributed Computing.
- Final Course Projects : High-Performance Networks; (Subjects in executions)Mobile Agents; Mobile Computing; Parallel Engineering Applications; Distributed High-Availability Architectures; Lightweight Protocols;

Scheduling for Cluster and Grid Environments.

- Graduate (MSc)- Courses : High-Performance Protocols;  
Distributed Architectures.
- Supervision of MSc Thesis (Subjects): High Performance Computing Architectures;  
Frameworks for Scheduling and Load Balancing;  
Mobile Computing;  
Lightweight Protocols;  
Distributed Scheduling for Grid Environments.

Prof. Dantas has oriented 1 Phd student, 28 Msc thesis and 30 undergrad final course work.

## V - Industry Work Experience

- **Petrobras** (Brazilian Petroleum Company), Headquarter Rio de Janeiro, Brazil, System Analyst, March 1987 - November 1998.
  - Project leader of a group responsible for installing and supporting CAD/CAE Intergraph software at the Engineering Division of the Production Department (87-89) in Unix and VAX/VMS environments.
  - Group leader of supporting team of the VAX/VMS and Unix environments (90-91) of the Production Department
  - Group leader for supporting team for TCP/IP, Decnet, XNS and X-25 protocols (92-93) of the Production Department. After this period, I did my Ph.D in Southampton (UK) till 1996.
  - Support for scientific application under parallel environments (such as PVM and MPI) and distributed configurations (96-98).
  - Designed and implemented many projects using hybrid computer networks (96-98).
- **Institute of Research and Development (IPD)**, Headquarter Rio de Janeiro, Brazil, System Analyst, June 1986 - March 1987.
  - Designed and implemented of basic I/O routines for microcomputer devices

## VI - SUMMARY

Highly motivated skilled and experienced educator, researcher and project investigator, with an excellent background and with experience in industry and academia. Professor Dantas has being awarded in every graduation ceremony for his teaching skill by students from both UnB and UFSC Universities.

The primary focus of my research is high performance computing systems, communication networks, parallel and distributed systems. This includes the development and research of software abstractions to enhance distributed and parallel applications over high performance distributed

systems such as cluster and grid environments. Therefore, subjects such as load balancing on distributed systems, parallel environments, mobile computing are some points addressed in my research. Dr. Dantas is an IEEE and ACM member.
